

California OES Weather Threat Briefing

Saturday, November 9, 2019
9:00 AM PDT

- **Day 1:** Elevated fire weather conditions will persist due to very low relative humidity and poor overnight recoveries in many areas

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

11/09/19 - 11/15/19

Saturday-Friday

- Elevated fire weather conditions will persist due to very low relative humidity and poor overnight recoveries in many areas
- Portions of the state will continue to see stagnant air into next week. Air stagnation may lead to poor air quality, which could cause issues for people with respiratory problems.
- Periods of breezy northerly or offshore winds are possible in some locations, including across Southern Region this weekend. No major wind events are forecast for the next week.
- No precipitation is expected across the state through at least the next week
